Viking Modular Solutions™ Enables the Embedded, Networking and Communications Markets with DDR3 Small Form-Factor Modules

FOOTHILL RANCH, Calif. – April 8, 2010 – Viking Modular Solutions™, a division of Sanmina-SCI Corporation, and leading manufacturer of innovative memory and flash solutions, today announced a comprehensive portfolio of DDR3 small form-factor ECC modules.

These DDR3 modules are ideal for space constrained applications typically found in the communications, embedded, industrial and storage markets. Targeted for industry standard platforms such as Blade Servers, Storage Bridge Bays (SBB), AdvancedTCA, MicroTCA, PicoTCA, Advanced Mezzanine Card (AMC) and Single Board Computers (SBCs) that require Error Correction (ECC), high density and small form-factor module solutions.

Mass production for these modules began in Q1 2010, and are available in a variety of densities and speeds. Viking Modular Solutions' DDR3 ECC small form-factor portfolio includes:

Form Factor	1GB	2GB	4GB	8GB
SODIMM – <i>Registered ECC SODIMM</i>	•	•	•	
SOUDIMM – <i>Unbuffered ECC SODIMM</i>	•	•	•	▲

SORDIMM – <i>Registered ECC SODIMM</i>	•	•	•	▲
MiniRDIMM – <i>Registered ECC MiniDIMM</i>	•	•	•	▲
MiniUDIMM – <i>Unbuffered ECC MiniDIMM</i>	•	•	•	
VLP MiniRDIMM – <i>Registered ECC VLP MiniDIMM</i>	•	•	•	
VLP MiniUDIMM – <i>Unbuffered ECC VLP MiniDIMM</i>	•	•		

• = in production ▲ = in development

About Viking Modular Solutions

Headquartered in Foothill Ranch, California, Viking Modular Solutions is focused on developing and delivering high technology products that optimize the value and performance of our customers' applications in the Network Infrastructure, Embedded, Defense & Aerospace and Enterprise markets. Founded in 1989, Viking Modular Solutions has been providing Original Equipment Manufacturers (OEMs) with industry leading design, engineering, product support and customer service for more than 20 years.
